National PB&J Day

April 2 is Peanut Butter and Jelly Day in honor of this ubiquitous sandwich staple. When did this sandwich achieve celebrity status? The first record of peanut butter and jelly on bread came in 1901, when Julia David Chandler mentioned the recipe in a book detailing the preparation of finger sandwiches for small

parties. She wrote, "The combination is delicious, and, so far as I know, original." Then, in 1922, Joseph Rosefield transformed the peanut butter industry by devising a method to keep peanut butter from separating. He called his new peanut butter *Skippy*. At the same time, American manufacturing evolved

to mass produce peanut butter and lower the cost, making it affordable to all. When sliced bread was invented in 1928, sandwiches became easier to make and, thanks to lobbying efforts by the peanut butter industry, the PB&J became standard fare in the nation's lunchboxes and school cafeterias.
